Nabbies Trading Company Limited (NTC Ltd) is a major distributor of Pharmaceuticals and Medical Supplies. Our headquarters, domiciled to Trinidad & Tobago, supplies state of the art medical advances to leading hospitals, pharmacies, medical personnel and customers in the English-Speaking Caribbean.

NTC Ltd was founded in 1986 by Mr. Nabbie Khan, in response to a void in the growing needs in Trinidad & Tobago healthcare sector. The key to our success is our people, a family oriented, tightly skilled workforce always keeping current with the medical world. This allows NTC Ltd to consistently supply the right solution to its customers.

A high level of commitment exists in our pursuit to make a positive difference in the lives of patients and those who care for them, by helping our customers deliver safer, efficient and effective care. We ensure that an impeccable delivery of quality products, customer before and after care and continuous efforts to keep prices low will remain at the forefront of NTC Ltd.

NB: Our product listing has a lifecycle of 1 (one) year and as such, some of our merchandise listed may be out of stock or we may have alternatives for the products in question. Additionally, because of the constantly changing market conditions, prices are subject to change without prior notice.

Our sales representatives, throughout Trinidad and Tobago, are ready and willing to assist you. You can contact them via the following numbers for clarity on any merchandise or questions:

GENERAL HEALTHCARE

Breathing Apparatus

NASAL CANNULAS

Dynarex Nasal Cannulas are a non-sterile adult oxygen cannula used to deliver rx oxygen to the nostrils through a long tubing for respiratory therapy. Flared nasal tips connected 7 or 25-foot length on oxygen tubing. Latex free. 1 nasal cannula per package

- Over-the-ear style
- Soft, comfortable nose-piece
- Flared tip
- 7ft Adult

LONGFIAN PORTABLE OXYGEN CONCENTRATOR

Our portable oxygen concentrator whose oxygen output is 1-5L/min is small and light. Therefore, it is quite suitable for mobile use. Combined with an adaptor for vehicle, this oxygen producing machine can be amounted on automobiles. With rechargeable battery, this machine can be used when people travel. This is a cost-effective product appropriate for blue-and-white collar workers and the common masses.

Power operated and can be run by a vehicle using the DC12V. Ideal for use when away from home, it can also function via a lithium battery or with an AC charger (220V/110V). This makes it suitable for use in professional home healthcare services also.

COMP MIST COMPRESSOR NEBULISER

The CompMist® Compressor Nebulizer delivers aerosol medication therapy effectively with clinical accuracy.

- Durable unit stores all its own parts and cords
- Particle size range: 0.5 to 10 microns
- Maximum pressure: 36 psi
- Compressor flow: 6 to 8 lpm
- Unit weight: 4.6 lbs.

CHILDREN COMPRESSOR NEBULISER

Quietly administers medicated aerosol mist for easy inhalation.

- Includes:
- Child Mask
- Infant Mask
- Inhalation Mouthpiece
- T-type Connector Nebulizer Bottle (6ml)
- Air Filter (5 pc.)

Oxygen Concentrator

OXYGEN CONCENTRATOR JRB1

- Compact Design, Lightweight & Easy to Carry
- Energy Efficient & Low Power Consumption
- Bigger screen which displays the Flow rate, Oxygen concentration, the Time of oxygen inhalation, and the Cumulative time of oxygen inhalation

Flow rate	Oxygen Concentration	Net Weight
1-7L	93% - 38% ± 5%	6kgs

Power Consumption	Outlet Pressure	Size
≤ 85W	6-10PSI	276*219*313mm

NON-REBREATHING MASK

Non-rebreather mask is a clear, latex free oxygen mask used only the air that is supplied to them through an oxygen tank or concentrator. It helps increase the supply of oxygen to the lungs, which in return brings more oxygen to the body tissues. Using a non-rebreather mask should be something a doctor prescribes for the patient and in not a personal preference.

The non-rebreather mask covers both the nose and mouth of the patient and attaches with the use of an elastic cord around the patient's head for easy adjustment.

OXYGEN MASK

With a transparent finish, these masks ensure patient comfort while allowing the caregiver to monitor them easily.

Dynarex Oxygen Masks offer a soft, clear finish that allows for greater patient comfort and easy monitoring of the patient's condition. These Oxygen Masks feature an adjustable nose clip and an elastic braid for a secure

Needles

HYPODERMIC NEEDLE (NIPRO)

The Nipro Hypodermic Needle has a thin wall, permitting rapid and efficient drug delivery.

- A proprietary grinding process results in an exceptionally sharp lancet point able to penetrate tissue smoothly and with minimal trauma
- Hub is color-coded for accurate, quick identification in or out of the package
- Hub translucency confirms flashback
- Paper-to-plastic packaging is convenient and environmentally friendly
- Packed 100/box, 10 boxes/case

FISTULA AVG

The Nipro SafeTouch™ II Safety Fistula Needle features a low-profile design and a system with “built-in” advantages: once locked, stays locked. The needle’s safety device makes an audible click to indicate the protector is locked and can be activated using a one-handed technique.

- Packed 50/box
- Gauges 15-17
- Colour coded, textured wings provide secure

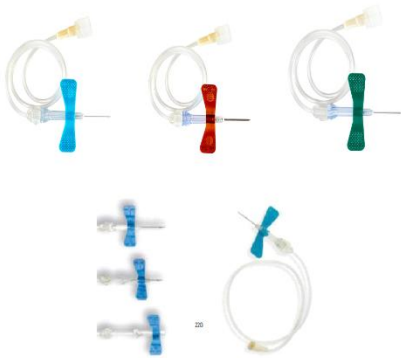

INFUSION I.V. SET

20drops/ml, male luer lock adapter, injection site, with roller clamp, filter with air bent, tube length: 1,550mm

- adults
- no needles
- IV. SET sets IV adult dose.
- 1 set

BUTTERFLY NEEDLES ONLY

- The new safety design of these butterfly needles ensure that the needle can never be re-exposed. The needles are colour-coded for easy identification.
- Activation of the safety mechanism can be done with one hand only; the other hand could apply pressure at venipuncture site as usual
- No exposure of sharp needle, as the safety mechanism is applied when the needles is being withdrawn
- Confirmation of locked safety by “click” sound
- Large wings for an easy and firm grip
- Available in size 21 – 25 gauges

ANGIOCATH I.V. CANNULA

- Clear and transparent;
- Smooth surfaces;
- Lock fitting
- Color-coded for easy identification
- Thin wall construction permits
- High flow rates
- Available in 14g-24g

Dimension (mm)	Colour
14G	Orange
16G	Grey
18G	Green
20G	Pink
22G	Blue
24G	Yellow
26G	Purple

LANCET 30G

These lancets are available to clients in compact sized specifications at budget friendly prices. These lancets are extremely affordable. These are convenient to use as well.

Syringes

INSULIN SYRINGE 1ML / 31GX5/16 & 30GX1/2

- No dead space.
- Latex-free throughout.
- Each syringe has a cap on both needle and plunger ends.
- The sterility of the fluid path and the needle are guaranteed unless the syringe is opened or damaged.

10ML PLAIN SYRINGE (BOX 100)

- Polypropylene syringe barrel and specially formulated elastomer stopper result in a smooth, accurate motion along the entire length of the barrel
- Materials are inert and compatible with delivered medications
- Syringes are ETO sterilized and undergo automated inspection to assure uniform quality
- Exceptional clarity – clear barrel for precise volume reading

Nipro manufactures a full range of hypodermic syringes to match a variety of clinical needs. Nipro's state-of-the-art manufacturing assures products of consistently high quality that also meet the most rigorous clinical requirements.

LUER LOCK

The Needle is attached to the Syringe by twisting it into the threads of the Syringe Tip to "lock" it into place.

10ML UNOLOK SYRINGE – (BOX 50)

- Luer lock single use syringes
- High clarity and barrel.
- Better plunger retention due to locking at the base.

Barrels are made of nontoxic, medical-grade polypropylene compatible with any medication.

The tip of the barrel is of two types – luer mount and luer lock.

Plungers are made of nontoxic, medical-grade polypropylene compatible with any medication.

Gaskets are made of natural rubber which is chemically inert and compatible with medication for short term contact drug delivery application.

Luer Lock nozzle present in UNOLOK syringes ensures secure fitment of the needle.

Precaution:

Before use, check the integrity of the sealing of the pack.

1ML PLAIN SYRINGE – (BOX 100)

LUER SLIP

You “slip” the Needle onto the Syringe Tip and rely on friction to keep it in place.

1ML SYRINGE WITH 25G X 5/8” NEEDLES

Nipro 1mL Syringe & Needle Combo comes with a clear barrel and easy to read graduation marks. The Luer Slip tip of this 1mL syringe fits conventional and safety needles.

This Nipro Syringe & Needle Combo comes with a 25G X 5/8" Thin Wall needle. Thin wall needles are thinner than regular wall needles. The outside diameter is the same size. However, the inside diameter is bigger than the regular wall's inside diameter. Thin wall needles allow rapid and efficient drug delivery.

This hypodermic needle is a hollow needle used for withdrawing fluid like blood samples, or injecting medications.

20ML PLAIN SYRINGE

- Smooth accurate motion along the entire length of the barrel
- Clear barrel; Precise volume reading
- Large finger grips for secure handling

20ML UNOLOK SYRINGE – (BOX 25)

- Unolok sterile single use syringes are synonymous with high quality
- Barrels are made of non-toxic, medical-grade polypropylene compatible with any medication

3ML SYRINGES WITHOUT NEEDLE - (BOX 100)

- Crystal-clear polycarbonate barrel
- Readily visible fluid level
- Individually Sterile

3ML SYRINGES WITH NEEDLES (BOX 100)

Features an ultra-sharp needle designed to minimise pain and discomfort for patients. Individually packaged disposable Sterile Syringe with Needle. These syringes offer clear barrels for easier viewing and bold, defined scale markings for more accurate dosage control. Perfect for hospitals and clinics,

- 3cc capacity
- Luer lock design
- Ultra-thin wall
- Colour-coded hubs indicate gauge
- Hub translucency for confirmation of flashback
- ETO sterilised
- Latex-free

Available in the following sizes:

- 21G x 1.5"
- 22G x 1.5"
- 23G x 1"
- 25G x 5/8"

50ML IRRIGATION SYRINGES – (BOX 30 & 25)

- Disposable, pyrogen free, non-toxic sterile syringe
- Eccentric luer or catheter hub.
- In individual " peel package" blister or poly.
- Optically clear, precision marked barrels ensure an accurate dosage of medication or feeding

50ML LUER LOCK SYRINGES – (BOX 30)

Smooth Action:

- Polypropylene syringe barrel and specially formulated elastomer stopper for smooth, accurate motion along the entire length of the barrel

Accuracy and Convenience:

- Clear barrel and crisp, bold markings assures rapid, precise volume reading

Efficiency:

- Paper-to-plastic blister packaging reduces recycling volume

Sterile, Non-toxic, pyrogen-free, latex free

5ML PLAIN SYRINGE

Smooth Action:

- Polypropylene syringe barrel and specially formulated elastomer stopper for smooth, accurate motion along the entire length of the barrel

Accuracy and Convenience:

- Clear barrel and crisp, bold marking assures rapid, precise volume reading

Efficiency:

- Paper-to-plastic blister packaging reduces recycling volume

5ML SYRINGE WITH 21G X1.5" NEEDLES

5mL Luer-Lok syringe with needle. Intramuscular needle, regular bevel, thin wall. (Individual items - Individual Packaging). No natural rubber latex. Detachable needle.

- Volume: 5 ml
- Bevel: Regular
- Wall type: Thin
- Sterile
- Latex free
- Individually packaged
- Detachable needle

5cc (5mL)

Injectables NB: Prescription required for purchase by non- (doctors, medical institutions and pharmacies)

HOME HEALTHCARE

Bedpans / Urinals

BED PAN - HHPBPWC355

The Bed Pan is designed to help people who are unable to get out of bed for any reason, such as after surgery, or after an accident.

- Strong Blue Plastic Frame with cover and handle
- Fitted with a built-in handle, making it easy to use and position. Supplied with a lid to help reduce the possibility of spills and for more discrete use

BED PAN - HHPBP349

- Plastic Frame
- Made of PP material
- Can be used at home or in hospital
- Safe quality

BED PAN - HHSTBP354

- Portable and easy to use with integrated lid
- Hygienic and easy to clean
- Useful for when travelling or camping
- Lightweight
- Ideal for bed use - Slide underneath you easily
- Built-in handle for easy carrying
- Anti-Corrosion, Compression, Strong, Durable, Resistant to stains

MALE URINAL - HHMUR350

- Urinal bottle ideal for patients with limited mobility
- Durable plastic
- Easy to clean

MALE URINAL - HHMFURI351

- Plastic moulded
- Long neck ensures the product is easy to use

MALE URINAL - HHMFURI351

- 1000ml capacity
- PP material
- Easy to use, lightweight, good-look
- Hygienic, easy to clean, with a cover to block smell

FEMALE URINAL - HHFEMUR352

- Easily Transportable
- Great for Emergencies
- Blue for Dementia Sufferers
- Flat base for stability to prevent tipping

FEMALE URINAL - RHFEMUR

- White Plastic (white HDPE).
- Graduated with Lid
- Easily Transportable
- Great for Emergencies
- Flat base for stability to prevent tipping

UNISEX URINAL - HHMFPLASTIC353

With an easy-fit female adaptor, this hygienic, unisex urinal is ideal for travelling or use at home. Can be used whilst sitting, standing or lying down.

- Hygienic unisex urinal
- Snap fit cap to prevent spillage
- Easy fit female adaptor
- Large integrated carry handle
- Manufactured from sturdy plastic

Stainless Steel Urine

UNISEX URINAL - HMMFUR1353

- Durable and smooth mirror polished stainless-steel construction
- Prevents bacteria growth and allows product to be cleaned with

STAINLESS STEEL KIDNEY DISHES (DEEP & SHALLOW TYPES)

Kidney dish or emesis basin is used in medical and surgical wards to receive soiled dressings and other medical waste.

- non-rusting stainless steel
- rounded edges and flexible design facilitate easy handling and use
- ideal for containing fluids, measuring output, and routine oral care
- available in s, m, l

Urinary Drainage Bag/Container

URINARY DRAINAGE BAG

- MedPride Urinary Drainage Bag have a 2000 ml capacity with fully graduated volume measurements.
- The Catheter Bags are constructed of sturdy vinyl for safe handling of drainage.
- The Leg Bags have an anti-reflux valve which prevents urine backflow.

Urinary Leg Bags – 600ml

MedPride Urinary Leg Bag (600ml) features twist valves that provide simple non-drip closure.

These bags are constructed of soft comfortable vinyl which provides optimum performance

URINARY LEG BAGS – 1000ML

MedPride Urinary Leg Bag (1000ml) features twist valves that provide simple non-drip closure.

These bags are constructed of soft comfortable vinyl which provides optimum performance and comfort.

URINE CONTAINER 4OZ

MedPride Specimen Containers are ideal for the collection and transport of patient samples including urine and sputum and also for use with formalin and fixative fills.

URINE CONTAINER 4OZ

- High density polyethylene plastic body and a screw-on sealing cap with an excellent leak-resistance and seals tighter
- Clear sterile cup can measure, both U.S. ounces and millimetres
- Each individually bagged cup provides a sample space for writing the date, name, doctor, and time and room number
- Latex free

Catheters

2 WAY LATEX FOLEY CATHETER (AVAILABLE IN 14FR, 16FR, 18FR, 20FR)

Latex Foley Catheter 2-way hard valve is used for drainage of urine and medication. It is also used for patients suffering from moving with difficulty or being completely bed-ridden.

- Natural latex material, 100% silicone coated
- Two way (2-way), Adult
- Hard plastic valve
- Good biocompatibility
- Smooth tapered tip facilitating introducing

2 WAY SILICONE FOLEY CATHETER

Two-way Foley Catheter consists of a long tube that is inserted into the bladder to drain out urine. One connector works as a drainage port and helps in draining urine while the other connector is a non-return balloon inflation valve that is used to inflate the retention balloon.

- Silicone, 100% latex-free
- Smooth tapered tip
- Symmetrical balloon
- Colour-coded sleeves
- Plastic Bespeak spring-loaded valve

Disposable Medical Catheter Spigot

The Medical Spigot for Foley Catheter is intended to seal the drainage funnel of the Urethral Catheter for prevention of nosocomial urinary tract infection.

- Non-invasive, transient use
- Latex Free
- EO Sterilization
- Sealing drainage funnel of foley catheter for prevention of nosocomial urinary tract infection
- Disposable
- Hygienic

CONDOM CATHETER MALE

- It Is Disposable
- Male Catheter Is Specially Designed for Urine Incontinence for Day and Night Use in Male Patient
- Non-Irritating Latex Is Soft and Comfortable and Can Be Crimped for A Customised Fit.
- Available in S, M, L, XL

COLOSTOMY BAGS

- Simple and convenient, easy to operate and easy to replace independently.
- Advanced hydrocolloid made of pressure sensitive adhesive and pectin, skin friendly, paste no residue.
- Double-Soft and comfortable to effectively reducing friction.
- EVOH film with strong odour barrier ability + special process activated carbon, can effectively prevent odour overflow in the bag.
- Available in 5bags with 5 baseplates & 20 bags & 20 baseplates

Commodes and Accessories

COMMODE – STEEL (3 IN 1)

3-in-1 functions: toilet safety frame, raised toilet seat and commode

- Steel powder coated frame increase strength and durability
- Height adjustable 43-58cm
- Easy to clean
- Grey PP toilet seat and PE armrest
- Fixed steel backrest
- Come with plastic pail and an inner pail without bottom

16" COMMODE – JRCOM810-W

- Steel powder coated frame increase strength and durability
- Height adjustable
- Easy to clean
- 16"
- Come with plastic pail and an inner pail without bottom
- Seat Width: 45
- Seat Height: 41-51
- Seat Depth: 40
- Backrest Height: 33
- Weight Cap: 100kg

COMMODE - SHENCOMCCO016

3 in 1 Commode Chair:

- Steel powder coated frame increase strength and durability
- Height adjustable
- Easy to clean
- **Grey PP toilet seat and PE armrest**
- Fixed steel backrest
- 3-in-1 functions: toilet safety frame, raised toilet seat and commode
- Come with plastic pail and an inner pail without bottom
- Not foldable

20" COMMODE – JRCOM8801-G

- Aluminum frame increase strength and durability
- Height adjustable
- Easy to clean
- 20"
- Come with plastic pail and an inner pail without bottom
- Seat Width: 49
- Seat Height: 44-54
- Seat Depth: 37
- Backrest Height: 18
- Weight Cap: 100kg

BATH CHAIR- SHENSCBC002

- allows persons with limited mobility or injury to sit during shower
- allows fall risk individuals to shower independently
- durable and secure
- lightweight and portable
- Corrosion-proof

SHOWER CHAIR WITH HANDLE- SHENSCWHBC018

Shower chair with backrest and armrest:

- Durable aluminium frame is corrosion resistant
- High-density polyethylene seat with drainage holes
- Angled legs for added stability
- Suction-cup tips on all four legs
- Height adjustable
- Backrest installation optional

BARIATRIC SHOWER CHAIR WITH BACK-DYNSC

- The Dynarex Bariatric Shower Chair with Back is made of durable molded plastic, rubber tips, the seat has holes that allow for drainage.
- Constructed from a corrosion-proof aluminum frame and blow-molded plastic seat
- Cross-brace design provides additional support
- Seat features drainage holes and hand grips
- Tool-free assembly and height adjustment
- Comes in retail-friendly packaging
- Weight capacity 500 lb.

U-CUT BATH CHAIR-JRBC

- The Bath U-Cut Seat with Back features a U-Cut in the front of the seat for hygienic purposes.
- Aluminum + PE
- The angled legs have rubber tips to help prevent the chair from slipping during use.
- Tool-free assembly and height adjustment

TOILET SEAT RAISER - SHENTR

- excellent way to obtain increased stability and ease
- designed to reduce the need to bend down
- minimizing risk to those who have delicate hips and joints
- provide increased bathroom safety

SHOWER CHAIR WITH HANDLE

- Total Length: 46"
- Seat Width: 40"
- Seat Height: 69-79"
- Seat Depth: 33"
- Backrest Height: 35"
- Weight Capacity: 110kg

BATHTUB SEAT-HHBS414

- Plastic frame
- minimises the risk of slipping or falling in the bathtub while bathing
- equipped with non-slip feet with
- non-corrosive and water-resistant

FOOT STOOL

- Size: 41*23*26cm
- Stainless Steel frame
- Anti-slip rubber
- Blue ABS seat

IV POLE - HHIVSTAND

ical device designed as a slender steel portable pole with stable height, a 4 wheeled base for stability, and 2 hooks on pole top that provides a secure place to hang bags of medicine or fluid that with gravity, ensures an uninterrupted administration of medicine down through a hollow plastic tube into the veins of the patient.

- Stainless Steel
- Steel Base

DRESSING TROLLEY - HHDT124

- Consists of two fixed molded shelves supported on a stainless-steel frame.
- The cart moves on 4 ball bearing swivel castors.
- Two of the castors have brakes, and all four have bumpers
- Size: 800x400x860MM

OVERBED TABLE WITH GAS SPRING

- Powder coated steel base
- Wooden table top
- Gas spring control height adjustable, easy to be controlled
- With 4 castors, 2.5 inch
- Max height :990mm
- Min height :670mm
- Width:530mm
- Length:870mm

2-CRANK MANUAL HOSPITAL BED - HH2CMHB602

- Specification: 2120 x 970 x 450MM
- Steel Powder Coated Frame
- Aluminium Side Rail
- Detachable ABS head and foot boards
- Backrest adjustable from 0 ° to 80 °
- Footrest adjustable from 0 ° to 45 °

ELECTRIC HOSPITAL BED-JRAHB

- 3-function Electric hospital bed with medical sponge mattress
- Standard Accessories:
- 4pcs 5" luxury silent castors, all with brakes
- 1 pair of aluminium side rail
- 1 set of the ABS head and footboard
- 4pcs drainage hooks, 4pcs dust guards
- 1 set of MOTECK motors, 1pc Wire-wrap Hook

AIR MATTRESS - SHENAIR

Alternating Air Mattress good for pressure ulcer therapy

- Adjustable pump
- Anti-bedsore, anti-decubitus

Compressor Characteristics:

Characteristics:

- 110V/60Hz Power supply
- 6-8 liter/min cells
- 50mmHg – 120 mmHg pressure range Nylon PU
- 12 min cycle time
- 7W power consumption; 1A Fuse
- Size: 27.5x13.5x9cm
- Weight: 1.6kg
- 135kg

Mattress

Size: 80"x36"
 Air Output 4.5" 18
 Top Cover:
 Air cells: Nylon/PVC
 Bottom: Tarpaulin
 Mattress weight: 6.5kg
 Weight Capacity:

MEDICAL SPONGE MATTRESS

- Size: 1950*840*70mm
- Oxford fabric + high density sponge and coconut fibre
- According to hospital bed size, 3 section

AIR MATTRESS - HHAMAT306

Mattress with adjustable pump

- Medical anti-decubitus system

Pump Details:

Aluminum motor cover vinyl
 Low noise, vibration and temperature
 Easy adjustable pressure
 Hook onto bedframe
 Power Supply: 220V / 50Hz
 Taiwan Nanya PVC
 Air output: 5-7 liter /min
 Pressure range: 50mmHg-110mmHg
 Cycle time: 12 min
 Power Consumption: 7W
 Fuse: 1A

Mattress Details:

Made of durable heavy, low toxic

Size: 200cmx90cmx7.0cm
 130 bubble cells with ends flaps
 Accessories: repair Kit, 1.5m hose
 Material: medical class

PVC Thickness: 0.3mm
 Colour: beige
 Mattress Weight: 2.2 – 2.5kg
 Weight Capacity: 120 – 130kg

Diagnostics

H2K PREGNANCY TEST CASSETTE / HCG ONE STEP PREGNANCY TEST CASSETTE

H2K PREGNANCY MID STREAM / EASY STEP PREGNANCY MID STREAM

NOVA PREGNANCY CASSETTES RETAIL

Available as follows:

- Nova Pregnancy Cassettes (Box of 25's)
- Nova Pregnancy (Bottle 25's)
- Nova Pregnancy (Box of 3)

URINARY TEST STRIPS

They are packed in standard sealed tube and each tube contains 100 strip tests.

The strip covers 11 parameters: -

- Leukocytes
- Nitrite
- Urobilinogen
- Protein
- pH
- Blood
- Specific Gravity
- Ketone
- Bilirubin
- Glucose
- Ascorbic Acid

Urinary Test Strips #5 available
 Urinary Test Strips #11 available
 Dip-and-read style.

PERFECT 3 BLOOD GLUCOSE MONITORING SYSTEM

- No Coding
- Ultra- Tiny Test Sample
- Strip Ejector
- Alternate Site Testing
- Accurate results in 6 seconds
- Gluco Perfect 3 Test Strips (50/Box)
- Gluco Perfect 3 Non Voice Meter
- Gluco Perfect 3 Lancing Device
- Gluco Perfect Twist Top Lancets

MULTICAREIN - GCT METER

Multicarein is a multiparameter diagnostic device for the periodical self-monitor and prevention of diabetes and metabolic disorders at home such as glucose, cholesterol and triglycerides.

Portable device for easy test procedure and quick results.

Accurate with amperometric technology for glucose and reflectometric technology for cholesterol and triglycerides.

Diagnostic Machine
Triglyceride Test Strips
Cholesterol Test Strips

AUTOMATIC ARM BLOOD PRESSURE KIT

DYNAREX DIGITAL BLOOD PRESSURE KIT

- Accurate digital blood pressure readings, convenient, and easy to use
- Automatic / Digital / Upper Arm
- Provides digital readings of systolic and diastolic pressure and pulse rate
- Automatic inflation with error detection
- Stores 90 most recent measurements averaging the latest three readings
- Large LCD display with low battery gauge

- Easy to use
- Large high definition LCD screen
- Shows WHO high pressure warning
- Fully automatic pressure and decompression
- Simultaneous IHB heart rate detection
- USB charging with built-in lithium battery
- Voice announcements
- Anti-bacterial arm belt
- Automatic shutdown

FINGERTIP PULSE OXIMETER (BLACK ONLY)

Two parameters: SPO2, Pulse Rate.

1. COLOR OLED display, four directions adjustable
2. SpO2 and pulse monitoring, and Waveform display
3. Low-power consumption, continuously work for 50 hours
4. Small in size, light in weight, and convenient to carry

Thermometers

ORAL/MEDICAL THERMOMETER (SMALL)

Small Sized °C only	Medium Sized Both °C and °F
------------------------	--------------------------------

Characteristics: Safe, Passive, Accuracy,
Material: Mercury.

Measuring range: 35°C-42°C or 94°F-108°F (medium size)
Accurate: 37°C+0.1°C and -0.15°C, 41°C+0.1°C and -0.15°C
Storage/Operating temperature: 0°C-42°C

Ear and Forehead Digital Infrared Thermometer for Baby Children and Adults

- **ACCURACY and RELIABILITY:** Forehead Thermometer (suitable for all ages) and Ear Thermometer (only for the child above 3 months), dual model makes your test result more accurate. A maximum of 30 previous readings is available to help you track the changes of your body temperature.
- **EASY OPERATION and READ:** One-button operation, 1 Second Measurement Time. Large display with back lit, allowing for very easy reading. Automatic off after 32 seconds to help save battery life.
- **CONVERTIBLE:** Temperature display with Fahrenheit and Celsius. Consistent and reliable thermometer temperature range (Accuracy) is +/-0.2 Celsius (+/-0.4 Fahrenheit).

NON-CONTACT GUN INFRARED FOREHEAD THERMOMETER

- Advanced infrared technology from leading IC provider,
- Non-contact forehead testing, extremely hygiene and safe.
- Two temperature units switchable: °C / °F
- Applicable for forehead temperature and milk temperature
- Capable of 32 sets temperature data storing
- Measurement range: 0.0°C-100.0°C / 32.0°F - 212.0 °F
- Precision: ±0.2°C / ±0.4°F
- Display resolution: 0.1°C / 0.1°F
- 0.5 second quick measuring time
- 10 seconds automatic shutdown function
- Operational conditions: 10°C-40°C (50°F-104°F) / 15-95%RH
- Operational distance: 3-5 cm

Mobility Equipment

STEEL WHEELCHAIR 18" - SHENWHEELSCO02

- Chrome steel frame
- Fixed armrests and footrest
- 8" front wheel and 24" rear solid wheel

STEEL WHEELCHAIR 19" - SHENWHEELSCO16

- Fabric seat, Powder Coated frame
- Single cross bar, 24" Spoke Wheel
- Detachable footrest and armrest

STEEL WHEELCHAIR 18" - JRWC902

- Detachable Armrest
- Detachable Elevating Footrest
- Chromed Steel Frame
- Solid Castor
- Solid Rear Wheel

STEEL WHEELCHAIR 19" - JRWC972

- Fixed Armrest
- Detachable Footrest
- Chromed Steel Frame
- Solid Castor
- Solid Rear Wheel

STEEL WHEELCHAIR 18" - JRWC901

- Detachable armrest
- Detachable elevating footrest
- Chrome Steel Frame
- 8" Solid Castor
- Pneumatic Rear Wheel

STEEL WHEELCHAIR 20" - MLWC20

- 20" Wide K1 Basic Nylon Wheelchair with Swing-Back Desk-Length Arms and Swing-Away Leg Rests
- Durable frame in hammertone finish
- Comfortable upholstery
- Smooth-rolling, solid tires
- Dual-axle hemi-height adjustable
- 250-300 lb. weight capacity

STEEL WHEELCHAIR 18" - MLWC18

- 18" Wide K1 Basic Nylon Wheelchair with Swing-Back Desk-Length Arms and Swing-Away Leg Rests
- Durable frame in hammertone finish
- Comfortable upholstery
- Smooth-rolling, solid tires
- Dual-axle hemi-height adjustable
- 250 lb-300 lb. weight capacity

STEEL WHEELCHAIR 22"

- Chrome Steel frame
- fixed armrest,
- fixed footrest,
- 6" solid castor,
- 22" solid rear wheel

QUAD (NORMAL) CANES

- Four-point base, combined with offset handle provides additional stability and support
- Easy-to-use, one-button height adjustment with locking bolt, allows quick, safe fitting
- Available in Chrome and Bronze
- No assembly required

HHCSH761 – Chrome Straight handle
 HHCCH763 – Chrome Curve handle
 HHBCH762 – Bronze curve handle

ADJUSTABLE QUAD CANE – HHCSF765

- Ergonomic cushion-top handle conforms to your hand and helps reduce impact shock
- Designed to fit more comfortably in your hand and is ideal for people with arthritis
- Cane strap with reflective patch for added night time safety

FOLDABLE CANE

- Cane folds into four convenient parts for easy storage
- High-Strength Aluminium Alloy 22Tube
- Oxidized Surface
- Lightweight And Durable,
- 10 levels in adjustable height
- Easy-to-use

COMFORT GRIP (FASHION) CANES

- Manufactured with sturdy, extruded aluminium tubing
- Comes Standard with premium wrist strap
- Easy-to-use, one-button height adjustment with locking ring Locking ring prevents rattling
- Available in three stylish and fun patterns and colours: Floral, Bronze, Purple

STRAIGHT CANE

- Height: 71-94"
- Max Weight: 220lbs

3 PRONG CANE WITH SEAT

- Aluminium frame, plastic seat
- Lightweight for easy carrying
- With foldable chair to sit
- Material for stick: Aluminium
- Material for handle and seat: Plastic
- Unfolded height(cm):84
- Folded height(cm):49
- Weight Capacity: 100KGS

4 PRONG CANE

- Height: 66-88"
- Max Weight: 220lbs

ALUMINIUM CRUTCHES

These are the crutches for adults who need a strong but lightweight mobility aid.

- For heights of 5'2" to 5'10"
- Lightweight aluminium
- Push-button adjustable
- Latex-free
- 350 lbs
- Lightweight and affordable
- Price is per pair
- S, M, L

FOREARM CRUTCH

- One-piece moulded plastic cuff and hand grip assembly provides safety and comfort
- Available in red and aluminium frosted

HHFCRED742 – Red
 HHFCFROST743 - Aluminum Frosted (top half – plastic)
 HHFCALFR744- Aluminum Frosted

UNDERARM CRUTCH

- Lighter than wood, the aluminium crutch provides stability and durability
- Non-skid, jumbo-size vinyl contoured tips provide excellent traction
- Comfortable, durable underarm pad and hand grip
- Sold as a pair
- S, M, L

WALKER – WITHOUT WHEELS

- Foldable for storage and transportation
- Light weight and sturdy aluminium frame
- Easy to open and close with centre button
- PVC handgrip for better comfort. Also uses PVC bushes
- Compact design

WALKER WITH WHEELS

- 2 button folding walker with wheels
- Lightweight Aluminium frame
- 2 button mechanism allows quick and convenient folding
- PVC hand grips
- With 5" front wheels

FOLDING ROLLATOR WALKER WITH WHEELS

- Liquid coated aluminium frame
- Adjustable Handle Height
- Upholstered Seat
- Handle Grips with Brake System
- Detachable Padded Backrest
- Wire Basket
- 8" Solid Castor

NURSING / DOCTOR ACCESSORIES

Accessories

TOURNIQUET (ADULT)

Tourniquet is used for tying the vein during blood collection. It is safe and easy to use.

- 100% Brand new and high quality elastic belt
- Latex free and autoclavable
- Easy to tighten and loosen with adjustment buckle
- Can be used to control bleeding or other tightening control
- Soft and comfortable
- Suitable for medical draw blood and emergency bleeding controller
- Do not suddenly need apply large force on it
- Release the belt slowly and then flip open
- SIZE - 17.7*1 inch, compact size quick release tourniquet.

TOURNIQUET (PAEDIATRIC)

- Made of high elasticity belt
- Convenient and quick to use
- Tightening force can be adjusted
- Suitable for medical draw blood and emergency bleeding controller
- 100% Brand new and high quality elastic belt
- Can be used to control bleeding or other tightening control
- Soft and comfortable
- Suitable for medical draw blood and emergency bleeding controller
- Do not suddenly need apply large force on it
- Release the belt slowly and then flip open

BELT LOOP ORGANISER KIT

Features four front pockets, including a Velcro-closure coin pocket, key chain clip and matching colour Velcro tabs to secure instruments. Belt loop on the back fits most belts. Comes with a 5.5" Lister bandage scissor, disposable penlight and 3-colour chart pen.

BELT ORGANISER

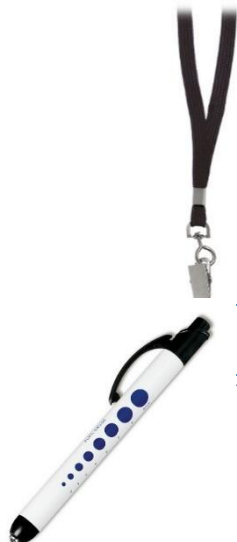

Features one tape loop, seven pockets, two Velcro tabs, quick release buckle, and 50" belt. Dim: 8" x 8 1/4". apron.

LANDYARDS

Standard metal badge holder with bulldog-style clip and breakaway clasp.

Available in a variety of colours

PEN LIGHTS

Disposable pupil gauge penlight with clip activated illumination. Features plastic construction, pupil gauge imprint and standard illumination.

QUICKLITE™ PUPIL GAUGE EDITION

The QuickLite™ Pupil Gauge Edition penlight is push button activated and features metal construction, pupil gauge imprint, standard illumination.

Sold as a package with 2-AAA

SPRAGUELITE NURSE KIT

Perfectly suited for use by both medical students and healthcare professionals. Kit includes a 22" SpragueLite stethoscope with threaded soft eartip; a full accessory pouch, nylon pocket organizer, Medimeter, 5 Inch Lister Bandage scissor, three-colour chart pen, and a disposable penlight.

Emblem Pins

Beautiful hand-crafted cloisonné jewellery. Each pin is individually handmade using old world craftsmanship. Painstaking attention to detail and fine gold plating enhance each pin and provide a distinguished appearance. All pins are sold in distinctive display packaging

BUCK MEDICAL NEUROLOGICAL HAMMER

This neurological hammer is designed to elicit myotatic reflexes and neurological responses. Features include a removable neurological pin and brush as well as Dual PVC bumpers for reflex tests. 6.75" handle length.

ECONOMY TAYLOR PERCUSSION HAMMER

This economy version of the Taylor Percussion Hammer is intended to elicit patellar reflexes as well as myotatic reflexes. The tapered handle tip is designed to elicit plantar reflexes. Features a PVC bumper and a 7.5" chrome plated handle. Available in burnt orange colour only.

SCALPELS DISPOSABLE

Professional Grade Quality
 Made with heavy-duty, tempered
 Stainless Steel blades
 Full Tactile Control
 Easy-grip plastic handle for full tactile
 control and a 6cm ruler for extra
 practicality points, you have pinpoint
 accuracy.
 Individually Wrapped
 For extra convenience as well as to
 ensure the scalpels maintain their
 sterile status. Each scalpel also has a
 protective cap to add to its re-usability.
 Available in sizes: #11, #20, #21

STANDARD POCKET OTOSCOPE

The Standard Pocket Otoscope is twist
 activate and features dual focused
 standard illumination and 2.5 x
 magnification.
 Can be converted into penlight by

MINI OTOLITE™ OTOSCOPE

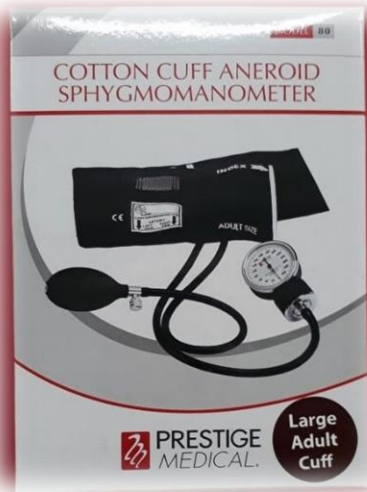

- The Mini OtoLite™ otoscope is clip activated.
- Comes pre-focused with standard illumination and 2X magnification.
- Includes 1 reusable specula (cold autoclavable) and two sizes of disposable specula.
- Can be converted into a penlight

14" QUEEN SQUARE HAMMER

Developed at the National Hospital for Neurology in Queen Square London, this hammer is perfectly suited for eliciting a full range of reflexes. Features a Tapered handle base which enables plantar reflex testing. The bumper ring is made of durable PVC plastic. 14" (36cm) handle

PRESTIGE MEDICAL COTTON CUFF ANEROID SPHYGMOMANOMETER

- The soft comfort of a cotton cuff is what sets this model apart. Designed for use with large adults.
- Latex free, cotton cuff, Index and Range Markings, artery indicator mark, owner ID label, gauge holder, deluxe inflation bulb and air release valve
- Cuff Ranges: Adult: 10"–16", Large Adult: 13.5" – 20"

**Range refers to the arm circumference that the cuff is designed to operate on.*

STANDARD ANEROID SPHYGMOMANOMETER (S79)

- The soft comfort of a cotton cuff is what sets this model apart. Designed for use with large adults.
- Latex free, cotton cuff, Index and Range Markings, artery indicator mark, owner ID label, gauge holder, deluxe inflation bulb and air release valve
- Cuff Ranges: Adult: 10"–16", Large Adult: 13.5" – 20"

**Range refers to the arm circumference that the cuff is designed to operate on.*

ANEROID SPHYGMOMANOMETER

Technical Features:

- Special Aluminium alloy manometer
- Standard cotton cuff
- 2-tube adult size PVC bladder
- Standard PVC bulb
- Dual-use air-release valve with spring
- Taper end valve
- Vinyl zipper bag

ANATOMY DISSECTION KIT

The AK-1 is a deluxe style dissection kit. It comes in a velour-lined zippered carrying case (AK-Case) and includes the following:

- two straight teasing needles with handles,
- 5.5" thumb dressing forceps,
- 4.5" sharp splinter forceps,
- 4.5" iris scissor,
- 4.5" dressing scissor (sh/sh),
- magnifying glass,
- Huber Mall probe,
- fish hooks (3 pack),
- S/S scalpel handle (no.4),
- S/S scalpel handle (no.3),
- two scalpel blades (no.21), and
- scalpel blade (no.10)

SUTURE REMOVAL KIT

Features:

- Complete suture removal kit
- Sterile
- Single-use
- Disposable

Kit Contents:

- Plastic scissors
- Plastic tray
- Removable Tyvek lid cover
- 4" plastic forceps

SHARP CONTAINER 2.5 GAL

- Container for disposal by incineration
- Rigid polypropylene construction and wall thickness
- Offers outstanding protection against penetrating sharps and leaking fluids
- When container is full to the

SURGICAL BLADES STERILE

- Stainless steel blades
 - Sterile
 - Individual peel open foil pouch
- Available in sizes: #11, #15, #20

STERILISATION POUCHES 5.25" X 7.5"

- Self-sealing – no tape or heat sealing needed
- Blue-tinted transparent cover makes it easy to detect contamination
- Internal and external colour-changing indicators assure proper processing in chemical vapour, steam, or ethylene oxide (EO) gas sterilization
- Medical grade materials

TONGUE DEPRESSOR

Used in medical practice to depress the tongue to allow for examination of the mouth and throat.

- Can also be used as a finger splint
- Tasteless, odourless and smooth
- Sterile, individually packaged
- Available in Junior and Senior Sizes

Stethoscopes

DUAL HEAD STETHOSCOPE

A traditional dual head stethoscope featuring a lightweight aluminium chest-piece with an inlaid non-chill ring. An excellent stethoscope for general auscultation. Includes soft PVC eartips. Lifetime warranty with free lifetime replacement parts.

Accessories Included: Soft PVC eartips

Overall Length: Appx. 32"*

Weight: Appx. 3.8 oz*

Ideal For: General Practitioners, Nurses, Nursing Students

**Due to the handmade craftsmanship and material attributes, actual specifications may vary.*

3M™ LITTMANN® CARDIOLOGY III STETHOSCOPE

Littmann Cardiology III Series stethoscopes provide outstanding versatility and acoustics performance due to its innovative exceptional design and construction. Exceptional versatility and outstanding acoustic quality are the hallmarks of the prestigious Littmann Cardiology III due to its superior construction and double-sided, three function chest-piece.

- Double-sided large/small chestpiece for both adult and paediatric assessment.
- For maximum versatility the reverse side is also easily transformed into a traditional open bell with the supplied adapter.
- Double lumen tubing (two tubes in one) for superior transmission and insulation of sound whilst eliminating

3M™ LITTMANN® CLASSIC II STETHOSCOPE

The 3M™ Littmann® Classic II S.E. Stethoscope provides high acoustic sensitivity through its dual-sided, stainless steel chestpiece, featuring a tunable diaphragm on one side and a traditional bell function on the opposite side.

Available in 5 different colours: Black, Burgundy, Caribbean Blue, Navy Blue, Orange

- High acoustic sensitivity in a dual-sided chestpiece combines with durable, compact design to deliver versatile auscultation and rugged dependability
- Tunable diaphragm responds with a simple pressure change to capture low and high-frequency sounds without the need to turn over the chestpiece

3M™ LITTMANN® MASTER CARDIOLOGY STETHOSCOPE

The 3M™ Littmann® Master Cardiology™ Stethoscope is characterised by the best acoustic response in the Littmann mechanical stethoscope line; with a tunable diaphragm, dual-lumen tubing, and a precision, ergonomically designed, stainless steel chestpiece.

Available only in black

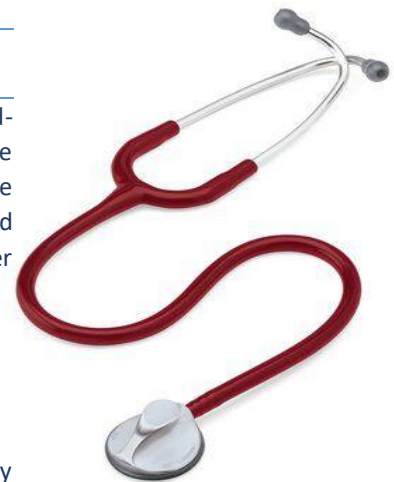

- Outstanding acoustics: The highest in Littmann mechanical stethoscopes.
- Tunable diaphragm: Hear high or low frequency sounds by slightly adjusting pressure on the chestpiece.
- Dual-lumen tubing: Two sound paths in one tube eliminates the rubbing noise of traditional double tubes.
- Headset is easily adjusted for individual fit and comfort. Angled eartubes align

3M™ LITTMANN® MASTER CLASSIC II STETHOSCOPE

The 3M™ Littmann® Master Classic II™ Stethoscope brings together award-winning ergonomic design and excellent acoustic sensitivity. It delivers reliable performance and comfortable use to professionals dedicated to providing the best patient care. The Master Classic II stethoscope is used by students and medical professionals alike to detect, listen to, and study heart, lung, and other body sounds for physical assessment and diagnosis.

Available in 3 different colours: Ceil Blue, Navy Blue and Purple

- Single-sided chestpiece designed for easier grip and manoeuvring.
- Tunable diaphragm: Hear high or low frequency sounds by slightly adjusting pressure on the chestpiece.
- Soft-sealing eartips provide an excellent acoustic seal and comfortable

3M™ LITTMANN® SELECT STETHOSCOPE

3M™ Littmann® Lightweight and Select Stethoscopes are ideal for taking blood pressure readings and making limited patient assessment. They're entry-level models that provide essential features such as tunable diaphragms. The 3M™ Littmann® Lightweight II S.E. Stethoscope provides reliable acoustic performance for taking blood pressure readings and making limited physical assessments of adult patients. Weighing just 118 grams, it's the lightest of all Littmann adult stethoscopes, making it more comfortable for caregivers who wear their stethoscopes all day long.

Available in 7 different colours: Burgundy, Caribbean blue, Ceil blue, Pine Green, Purple, Raspberry, Royal Blue

A good choice for medical professionals such as LPNs, licensed vocational nurses, certified nursing assistants, and nursing students.

- Lightest weight of all Littmann adult stethoscopes at just 118 grams.
- Dual-sided chestpiece provides versatility of both a tunable diaphragm and open bell.
- Teardrop-shaped chestpiece for easier positioning under blood pressure cuffs and around bandages.
- Tunable diaphragm: Hear high or low frequency sounds by slightly adjusting pressure on the chestpiece.

STETHOSCOPE

Specification

- Silver dual head chestpiece for adult
- The $\Phi 48\text{mm}$ membrane is sensitive for sound collecting.
- The small bell-like chestpiece is used for auscultating slight and low frequency sounds.
- Considerately dual anti-chill ring design.
- Connecting spring is embedded, eartips are specially designed to fit the structure of the ear.
- Stainless steel chest piece, excellent sound conduction.
- Includes:
- A pair of Metal ear tips and a replaceable membrane.
- Name Tag
- Travel Bag
- Soft-sealing eartips provide an excellent acoustic seal and comfortable fit.

REHABILITATION AIDS

Arm/Shoulder Support

POUCH ARM SLING

Used for shoulder dislocation, bursitis, soft tissue injuries of the shoulder joint. Provides support to plastered arm.

- Cotton fabric and wide straps
- Available in S, M, L, XL

POUCH ARM SUPPORT

Breathable, Adjustable, Orthopaedic Medical Arm Sling

- Mesh Fabric
- Composite cloth
- Buckle

SHOULDER IMMOBILISER

Used for shoulder dislocation or fractures and post-surgery care.

- Durable fabric-based material
- Double Straps fit over shoulders,

Available in S, M, L, XL

Back / Thoracic Support

ASH BRACE (HYPER EXTENSION BRACE)

Best used for Tuberculosis of Dorso lumbar spine and fractures of lower thoracic and upper lumbar vertebrae.

- Light weight firm, adjustable & easy to apply with velcro straps.
- Ethafoam cushioning for better comfort.
- Available in a universal size

COCCYX WEDGE CUSHION

Used for coccydynia, injury to low back or tail bone, pain during or after sitting, unstable Joint between sacrum & coccyx bone and weak muscles over sacrum region

- Made-up of Medical Grade P.U Foam
- Easy removable &

CONTOURED LUMBO SACRAL SUPPORT

Used when there is Degenerative Lumbar disc disease, osteoporotic pain of the lumbar spine and lumbosacral strain.

- Highly porous orthopaedic webbing
- Hook / Loops provided for perfect fitting and strong immobilization
- Easy application and removal

Available in S, M, L

LUMBO SACRAL SUPPORT

Used for Low back pain cases and general purpose with mild compression and support.

- High grade elastic for flexibility
- Double support for proper fitting and durability
- Skin friendly fabric

MALE HERNIA BELT (DOUBLE PAD)

Provides compression support over herniated tissue in the pelvic region before surgery. Applied where surgery is contra-indicated.

- Good quality surgical elastic with elasticated straps
- Pads can be adjusted
- Universal size

TUMMY SHAPER

Provides compression & support to help the abdomen muscles improve tone & strength. It also provides support Weak abdomen muscles and reduces abdomen size measurement. It aids in lifting the hanging & bulge of the abdomen.

- Breathable & Feather Light Fabric.

Cervical Support

CERVICAL PILLOW

Offers support to patients suffering from cervical spondylosis and provides proper extension for faster recovery. Enhances full support to the neck allowing shoulder & upper back muscle to relax and gives relief from stress in case of back pain.

- Resilient, firm and washable foam
- Combined with cotton

HARD CERVICAL COLLAR (ADJUSTABLE)

Used for cervical spine immobilisation, during pre and post-surgical cases and provides rigid support and strong immobilisation

- High-density polythene sheet
- Proper foam padding for comfort
- Double layer facilitates height adjustment
- Holes for ventilation
- Velcro closure for easy application

Available in S, M, L

SOFT BONELESS COLLAR

Provides proper posture with mid support while preventing any muscle pull or hyper flexion or extension. Preventive care for neck while reading, watching T.V.

Used as semi- rigid collar for daily routine jobs or during whiplash injuries or hyper extension injuries.

- Soft foam collar to provide mild support to the neck
- Washable foam and fabric to maintain hygiene

Available in S, M, L, XL

Forearm / Wrist Support

FINGER COT

Suitable for fingertip injuries, nail injuries and burn care.

- Design allows further taping.
- Keeps the finger immobilised in straight position.

Available in S, M, L

FOREARM SPLINT

Used for strain and sprain in the wrist, early cast removal, minor fractures of the wrist and distal forearm. Provides maximum immobilisation to forearm & wrist

- Strain and sprain in the wrist.
- Early cast removal.
- Minor fractures of the wrist and distal forearm.
- Available in Right and

WRIST BRACE WITH THUMB

Design to support and moderately immobilize the wrist to relieve pain from Strains & Sprains, Tenosynovitis, Arthritis and conditions requiring orthopaedic support.

- Superior quality elastic for easy & comfortable wear.
- Adjustable Hook and Loop fasteners allows free and natural movement of thumb and fingers.
- Universal size that fits to left or right wrist.

WRIST SUPPORT WITH SPLINT

- Wrist support
- Wrist pain relief correct your thumb
- breathable and comfortable
- Easy and convenient
- Reduce wrist joint burden
- Wrist concentration during exercise
- Available in L & R

HARD CERVICAL COLLAR (ADJUSTABLE)

- Size: free
- Material: Neoprene, Chinlon, Polyester, Spandex
- Relieve Pain, Sports protective
- Sports winding pressure wrist guard
- Stable decompression protects your tendons
- Smart fashion
- High Elastic Pressure
- Non-slip and breathable, stable pressure, fit to human body, sweat absorbing and durable
- Wrist compression design for stability
- Single winding design 360° to protect your wrist

Knee / Leg / Ankle Support

ANKLE BRACE

Helps in ligament and soft tissue injuries, minor fracture bracing, post-operative cases and early cast removal.

- Shoe shaped design
- Velcro attachment to fit accordingly
- Detachable plastic splint to give required rigidity

Available in M, L

COMPRESSION STOCKING (BELOW KNEE)

Used for Varicose vein conditions and for swollen legs and joints pain

COMPRESSION STOCKING (MID-THIGH)

Used for Varicose vein conditions and for swollen legs and joints pain

- Two ways stretchable seamless stocking from thigh to ankle
- Soft yarn and elastic combination provides comfortable and uniform compression

ELASTIC KNEE BRACE

Post-operative knee brace which also supports after cast removal.

- Rigid splints provided on lateral and dorsal side
- Elastic and Velcro combination gives required compression.
- High quality fabric used for comfort

Available in M, L

KNEE SUPPORT SHORT TYPE

Used as a post-operative knee brace and as a support after cast removal

- Rigid splints provided on lateral and dorsal side
- Elastic and Velcro combination gives required compression
- High quality fabric used for comfort

Available in M, L

TUBULAR KNEE SUPPORT WITH HINGES

Provides support and warmth to weak or painful knees while controlling painful movement. Also used during post-operative care and in preventive care in sports activities.

- High quality and long staple cotton yarn
- Hinges on the lateral sides provide extra support to injured knee muscles

FOOT DROP SPLINT

Used to reduce post cast oedema and aids in prevention of foot drop contracture as well as immobilisation of ankle joint. Also prevents Achilles Tendon.

- Made of durable and resilient polypropylene.
- Strong leaf spring action provides push required in the swing phase of the walk.
- Semi rigid construction provides support and stabilisation in the hemiplegic foot.
- Anatomical shape, provides good weight distribution and maintains the foot in dorsiflexion position, which helps in quick healing.

FOOT ANKLE LEG SPLINT

An alternate to wire splint or cumbersome POP slab that can be used in pre cast conditions. Prevents lateral dropping of foot during sleep. Contains a derotation splint to prevent hip rotation following surgical procedures.

- Well-padded, unbreakable, washable, reusable economic and light weight splint.
- Flat base to give stability to the foot preventing lateral dropping of foot.
- High quality fabric used for

WALKER BOOT

Standard High Support Fractures Injury Rehabilitation Walker Boot

Orthopaedic support and rehabilitation.

- Rubber Outsole: anti-skidding and ensure the secondary injury to the injured area
- Hook and Loop Fasteners: Users can freely and easily adjust suitable size according different conditions
- Composite Fabric: Soft and breathable, not easy to breed bacterium
- Aluminium Strips: Support protection
- Material: EVA, complex fabric, nylon, plastic, metal

SPECIALISED PRODUCTS

Biopsy Punches

MEDLINE BIOPSY PUNCHES

- Ergonomically designed for routine dermal procedures
- Feature a unique, easy-grip barrel and pressure assistance platform for superb control
- Razor-sharp stainless-steel blade for precise excisions
- Available for purchase single and by box

Available in 2mm, 3mm, 4mm, 6mm, 8mm

DYNAREX BIOPSY PUNCH

The Dynarex Biopsy Punches (25/Box) combine a seamless stainless-steel with a durable, ribbed handle, providing greater comfort and control to the users. These punches are available for purchase single and by box.

Available in 2mm, 3mm, 4mm, 6mm, 8mm

DISPOSABLE VAGINAL SPECULUM

Designed to eliminate the time and expense of reprocessing metal specula and to reduce the risk of cross-contamination.

- Clear acrylic allows complete visualization of the vaginal canal
- Wide, ergonomic handle improves balance for easier manipulation during exams
- Individually wrapped
- Made of smooth, durable plastic
- Sold individually or by a box of 100

Available in S, M, L

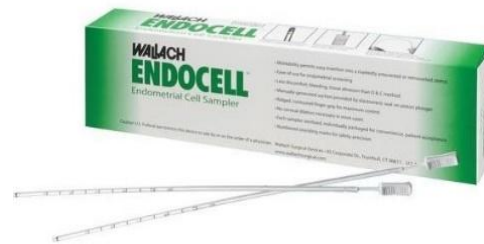

Endometrial Cell Sampler

ENDOCELL ENDOMETRIAL CELL SAMPLER

The Wallach Endocell Endometrial Cell Sampler easily extracts an endometrial histological sample from the uterine mucosal lining in just seconds using manual suction.

- Moldability for easy insertion into anteverted or retroverted uterus
- Flexible polypropylene sheath
- Allows easy entry into endometrial canal
- Ridged, contoured finger grip for control

MEDGYN ENDOMETRIAL CELL SAMPLER

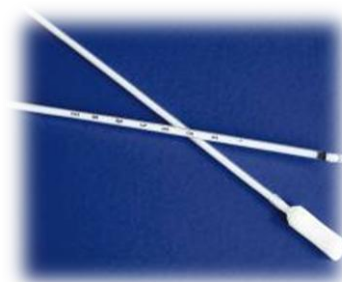

Utilized for sampling of endometrial tissue.

- Convenient for routine gynaecological use and suitable for cytologic and histologic diagnosis
- Facilitates both endometrial scraping and aspiration
- Avoids endometrial sample contamination
- Curette conveniently bent with sharp slot on side assures better sampling from all areas of the endometrial cavity

PREFERRED CURETTE ENDOMETRIAL CELL SAMPLER

Bioteque's Preferred Curette is used to obtain samples of mucosal lining for histological study in cancer screening, endometrial dating, or bacterial culturing.

Endotracheal Tubes

CUFFED ENDOTRACHEAL TUBES

- Provides direct route into patient's lungs
- May be used to administer certain medications
- Inflatable cuff secures and maintains patient airway
- Sterile
- Available with or without malleable intubation stylet
- Sold by the box of 10 or single

Available in 3mm, 3.5mm, 4mm,

UNCUFFED ENDOTRACHEAL TUBES

Provides direct route into patient's lungs

- May be used to administer certain medications
- Sterile
- Available with or without malleable intubation stylet
- Sold by the box of 10 or single

Available in 3mm, 3.5mm, 4mm, 7mm, 7.5mm

Endotracheal Tubes

Used to deliver oxygen in higher concentrations

- May also be used as a route for administration of certain medications
- Help secure and maintain patient airways
- Endotracheal Tubes have a Murphy eye hole
- Sterile

MURPHY STYLE EYE HOLE

Women's Healthcare

BIOTEQUE FITTING SETS

An ideal diagnostic tool to help the clinician determine the proper style and size of pessary for each patient.

The pessary is a vaginal prosthesis that has evolved over centuries to become an effective medical device to relieve the stress of uterine or bladder prolapse, cystocele, rectocele, and often improves the symptoms of urinary incontinence.

Pessaries are distributed in a variety of styles, shapes, and sizes. They are perfectly safe, effective, and comfortable for long term usage.

A pessary is a mechanical device, not unlike the common diaphragm, made of non-toxic medical-grade silicone and used to support the lower pelvis. This material is biologically inert so allergic reactions are rare. Pessaries can be autoclaved (except donuts) or boiled

BIOTEQUE CUBE PESSARY

The Cube pessary, available only with drains presently, may be used to relieve the symptoms of a cystocele or rectocele as well as a second or third-degree uterine prolapse.

NB: Size 10 will cost more than all other sizes before it
Available in 2, 3, 4, 5, 6, 7, 8, 9, 10

BIOTEQUE HODGE PESSARY

The malleable Hodge pessary, available with or without a supporting membrane, is commonly used for a first or mild second-degree uterine prolapse and may also relieve a cystocele. These pessaries, designed to be manually shapeable for individual fitting, are usually prescribed for reproductive-aged women who prefer conservative therapy.

Available in 2, 3, 4, 5, 6, 7, 8, 9

BIOTEQUE DONUT PESSARY

The Bioteque Silicone Donut pessary is used to relieve the stress of third degree prolapse/procidentia, a cystocele, or rectocele. This pessary, often used by post-menopausal women, is easily compressed for insertion

BIOTEQUE RING PESSARY

The Ring pessary, available with or without a supporting membrane, is primarily used for a mild first-degree uterine prolapse or a cystocele.

Available in 2, 3, 4, 5, 6, 7, 8, 9

BIOTEQUE GELLHORN PESSARY

The Gellhorn pessary with drains is used to relieve the symptoms of cystocele or rectocele as well as a second or third-degree uterine prolapse. This pessary's stem with knob is easily folded to facilitate insertion and removal.

Available in 2, 3, 4, 5, 6, 7, 8, 9

CONSUMABLES

Bandages

EXAMINATION PAPER (SMOOTH)

Top quality, smooth paper which offers superior performance and economy. The Table Paper is an effective barrier against contamination. Available in rolls of 225 feet long.

Gauze

GAUZE (NON-STERILE)

- Created with all-cotton gauze and extra 12-ply thickness to be far more absorbent than any other, thinner options on the market. With a 4" x 4" size, they provide good coverage and versatility of usage.
- Great for wound dressing, surgery prepping, exfoliating, scrubbing as well as cleaning of cuts/scrapes, or even pet cleaning, thanks to their increased absorption & soft fabric quality.
- Provides extra absorption, but is also super soft on the skin, making for comfortable use even for those with most sensitive skin types.

GAUZE (STERILE)

The Surgical Sponges are latex free making them ideal for wound dressings, general cleansing, minor prepping, wound packing and debriding. Available in 2x2x8, 4x4x12

CONFORMING STRETCH GAUZE

- Ideal for wound care and minor injuries, and they can be wrapped around any part of your body, including your knee, wrist, ankle, foot, hand, elbow and shoulder.
- Covers wounds and provides a slight compression. At the same time, the absorbent and breathable fabric of the rolled gauze will stop the bleeding and allow your wound to heal faster.

Available in size 2, 3, 4

Gloves
